Mr. and Mrs. Joe Cavallero
2054 Nemnich Road
St. Louis, Missouri 63136

Dear Mr. and Mrs. Cavallero:

As you know, in December 1982 samples of soil were collected on your property to analyze for dioxin (2,3,7,8-TCDD). This activity was part of our investigation of the site known as Cavallero Residence. The analysis of these samples did not detect 2,3,7,8-TCDD at a level of 1 part per billion. The results of these samples were sent to you previously.

Based on these analytical results, we plan no further investigation for dioxin on this site. We will contact you if, at a later date, we learn of any new facts we think might warrant altering of the above decision.

We welcome any questions you may have. Questions may be directed to our toll-free number, 1-800-892-5009.

Sincerely,

William A. Spratlin
Deputy Director
Air and Waste Management Division
